ENVIRONMENTAL, INC.

NATURALLY URBAN ENVIRONMENTAL INC.

PITCH DECK

Tale of two cities

Growing up on the north side in the Uptown neighborhood of Chicago in the 90's I was able to walk to the lakefront, had access to unrestricted fresh air. When my family moved to the southside things were quite different, there was a major industry and the stench of landfills claimed the morning air.

This clear difference in the two cities never made sense to me but this distinction is the foundational inspiration behind my mission as a business owner and environmental scientist.

2 OVERVIEW

Naturally, Urban Environmental Inc. is a social green-enterprise providing sustainable real estate project development and environmental consulting services and products.

We are on a mission to stimulate sustainable-social empowerment in the construction industry. Our goal is to be a global hub for sustainable solutions powered by universal collaboration and strategic partnerships with some of the industry's brightest talents in the clean energy and green construction space.

3

- Green and eco-friendly product distribution and vendor resource
- Environmental Consulting Services
- Stimulate sustainable-social empowerment in residential and commercial real estate development in urban communities to ensure cleaner, safer indoor spaces.

VICTORIA WILSON

GENERAL CONTRACTOR AND ENVIRONMENTAL SCIENTIST
