CHIEF EXECUTIVE OFFICER

WOMAN IN STEM

FOUNDER

VICTORIA YOUNG

Queen of Green

About Me

Born and raised on the South Side of Chicago, Victoria was counted out and was academically challenged. Almost criminally convicted, her fated shifted in 2003 when she left Illinois to obtain a college degree at a historically black college that changed the course of her life and opened new doors in higher education, politics and entrepreneurship. Now she is sharing her journey and changing the lives of countless youth and young adults and communities through eco social enterprise.
